FOR IMMEDIATE RELEASE

Luminara Flameless Wax Candles Now Available at ToTT Store

Singapore, November 2014 – Luminara, the new attractive and realistic flame-effect candles are now stocked at ToTT store.

Luminara candles feature a patented, flame-effect technology – a flickering flame in constant motion – that makes the candle appear alive. Battery operated with built-in timers, Luminara candles provide the ambience of a lit candle without any mess and are children and pet safe. Indoor Luminara candles are constructed of real wax, while the outdoor candles utilize a weather-resistant plastic shell, complete with drain holes for moisture.

Luminara is virtually indistinguishable from real candles at short distances and is realistic, safe and clean. Luminara candles, which have an approximate lifespan of 4,000 hours, can be used anywhere a conventional candle would be placed without the risk of a naked flame. Their versatility also allows them to be used in locations where you wouldn't normally place a real candle such as children's bedrooms, elderly care homes, retail and leisure spaces and even film locations. The different sizes, colours and scents are perfect to suit every ambience and occasion.

Battery-operated, flameless candles are children and pet safe! Convenient too – you can put battery operated candles in hard-to-reach places, set the timer, sit back and enjoy without the mess and worry: No wax drip, no smoke, no heat and no worry of fire.

Select a variety of sizes, colors and scents, all with convenient built-in timers. Most work with the optional remote control.
